

Crew Wanted

Boat name: N86-01

Boat model: Nordhavn 86

Position(s) available: Chef and Stewardess

Necessary experience requirements:

PLEASE NOTE THAT BOTH THESE POSITIONS ARE FOR PROFESSIONAL CREW!

Chef

Must be accomplished at producing top quality, healthy food for 12 people daily.

Must have experience in provisioning a yacht for long range cruising.

I am looking for a healthy, non-smoking male or female that at times will be willing to help outside of the galley.

Previous professional experience on yachts is a must.

Stewardess

I am looking for a healthy, trust worthy, non-smoking female that will deliver the highest level of service to my guests.

Must be organised and have experience with young children.

At times they will be required to help out on deck. Previous professional experience on yachts is a must.

Cruising plans:

Commissioning in Dana Point, September 2007. Cruising through Mexico for Christmas and early part of the New Year. on down through Costa Rica and possibly the Galapagos Islands before transiting the Panama Canal. There is the chance that the yacht will visit the San Blas Island before heading north, through the Bahamas and on up the east coast of America. This yacht will visit areas that professional yachts would normally not go. Further cruising details have not been made at this point in time.

Dates needed: September 2007. Long term.

Current location: Under Construction

Comments: This would be a great opportunity for the right people. The family that owns the boat are kind, courteous, respectful and a pleasure to work for. Teamwork is a must as there will be a total of 4 crew and I stress that this is a long-term position.
